Shubham Kumar Singh

Synopsis: With 3 years of experience as a Mobile Application development in React Native(Android ,iOS) and Android , I am proficient in designing and developing the Cross platform mobile application.

EXPERIENCE SUMMARY

3.6 years of experience in Mobile Application Development.

> ➢ React Native Development: I have successfully designed, developed, and deployed mobile applications using React Native framework. I am well-versed in building cross-platform apps that offer seamless user experiences.
>
> ➢ Component Development: I have expertise in creating reusable and scalable React Native components, ensuring efficient and modular code structures. I am proficient in utilizing libraries and tools to enhance the development process.
>
> ➢ API Integration: I have experience in integrating RESTful APIs and third-party services into React Native applications. I am adept at handling data fetching, authentication, and error handling to ensure smooth communication between the app and the server.
>
> ➢ Debugging and Testing: I am skilled in debugging and resolving issues that arise during the development process. I have utilized various testing frameworks and tools to ensure the reliability and stability of React Native applications.
>
> ➢ Performance Optimization: I have a strong understanding of performance optimization techniques and have implemented them to improve the speed and efficiency of React Native applications. I constantly strive to enhance the overall performance of the apps I develop.
>
> ➢ Continuous Learning: I am dedicated to staying up to date with the latest trends and advancements in React Native and mobile app development. I actively seek opportunities to learn new technologies and frameworks to expand my skillset.

QUALIFICATION

Degree	Institute	Year
Master of Computer Application	Noida Institute of Engineering & Technology	2023
Bachelor of Computer Application	Greater Noida Institute of Engineering & Technology	**2021**
PCM	DAV Public School	2018

Working with EY GDS (Ernst and Young) From Dec 2021-Aug 2023

PROJECT EXPERIENCE

Project Name	**:** Atta (BBL Digital Wallet)
Role	**:** Senior React Native Engineer
Duration	**:** Apr 2024 –Aug 2024
Tools Used	**:** React Native (TypeScript), Android Studio, Xcode, Azure

Description:

Experience the next level of security and convenience with Atta, the BBL Digital Wallet application. Our robust authentication features ensure your transactions and personal information are always protected. Here's how we keep your digital wallet secure:

- **Microsoft Entra Integration**: Leveraging the power of Microsoft Entra, we provide enterprise-grade identity and access management, ensuring only authorized users can access their accounts.
- **Biometric Authentication**: Enjoy the ease and security of biometric authentication. Use your fingerprint or facial recognition to quickly and securely access your wallet.
- **PIN Entry**: For an added layer of security, you can set up a personal identification number (PIN) to access your account. This ensures that even if your device is lost or stolen, your wallet remains secure.
- **Deep Linking**: Seamlessly navigate to specific sections of the app directly from external links, enhancing your user experience and making transactions quicker and more efficient.
- **Built with React Native**: Our application is built using React Native, ensuring a smooth and responsive user experience across both iOS and Android platforms.

Working with Digimonk Technologies Pvt Ltd. From Dec 2023

PROJECT EXPERIENCE

Project Name   : Azubi
Role   : React Native Developer
Duration   : Jan 2024-Mar 2024
Tools Used   : React Native (TypeScript), Xcode

Description:
Azubi is a cutting-edge mobile application designed and developed using React Native, tailored specifically for the German audience. This app aims to revolutionize the job search experience for apprentices (Azubis) by incorporating user-friendly features and advanced functionality.
Key Features:
Localization:
Azubi is equipped with a robust localization feature, providing users with a seamless experience in their preferred language, ensuring clear communication and easy navigation.
Advanced Job Filtering:
The app offers an extensive job filtering system, allowing users to refine their job search based on multiple criteria.
Users can filter job opportunities by:
City
Industry
Job Type:
Company Search
Real-time Updates
Responsive Design

PROJECT EXPERIENCE

Project Name   : PLEXYS
Role   : React Native Developer
Duration   : OCT 2023 till Dec 2023
Tools Used   : React Native (TypeScript), Xcode

Description:
Back or Neck pain? Plexys health connects you with people that can help, will collect the information your provider needs, help you communicate with your provider, and get you on the road to recovery fast. Don't wait weeks for appointments, get taken care of today.

• Track your symptoms using the scales your doctor uses
• Track your activity levels and mobility scores
• Find a provider in your area
• Send an automatically generated detailed report to your provider
• Browse PLEXYS approved products to help you through the pain

PLEXYS is free to use to track and report your symptoms.

PROJECT EXPERIENCE

Project Name	**:** Upwordo
Role	**:** React Native Developer
Duration	**:** AUG 2023 till OCT 2023
Tools Used	**:** React Native, Xcode

Description:
"Upwodo is a vocabulary practice app designed to help users learn English to German translations. Powered by React Native, it features a convenient text-to-speech functionality, allowing users to hear pronunciations of words as they practice."

Shubham Kumar Singh

Working with Mavesys Infosoft Pvt Ltd. From Dec 2021-Aug 2023

PROJECT EXPERIENCE
Project Name   : My Duty
 Role   : Flutter Developer
 Duration   : Apr 2023 –Aug 2023
 Tools Used   : Flutter, Android studio, Xcode

Description:
My Duty is a cutting-edge mobile application designed to streamline attendance tracking for businesses, organizations, schools, and any group or event where attendance is essential. This powerful and user-friendly app revolutionizes the way attendance is marked by incorporating location and picture verification, ensuring accuracy and accountability like never before.

PROJECT EXPERIENCE
Project Name   : Job X
 Role   : React Native Developer
 Duration   : Feb 2023
 Tools Used   : React Native, Xcode

Description:
Job X app is a professional networking platform. Create a profile, connect with professionals, follow companies, and join groups. Search for jobs, share insights, and stay updated with industry news. Communicate with connections, get personalized recommendations, and build your professional network.

PROJECT EXPERIENCE
Project Name   : Awadh banquet hall
 Role   : React Native Developer
 Duration   : Jan 2023 till Mar 23
 Tools Used   : React Native, Xcode

Description:
Our Banquet Hall Booking application, built using React Native, offers a seamless and user-friendly experience for individuals or businesses looking to reserve banquet halls for various events. Whether you're organizing a wedding reception, corporate conference, birthday party, or any other special occasion, our app simplifies the process of finding and booking the perfect venue.

PROJECT EXPERIENCE
Project Name   : MaveKart
 Role   : React Native Developer, Android Developer
 Duration   : Jul 2022 till Dec 22
 Tools Used   : React Native ,Android Studio(JAVA ,XML)

Description:
MaveKart is an e-commerce app developed first in Android Studio and then migrated to React Native. It offers a wide product range, secure payments, user accounts, and seller functionalities. The migration to React Native ensures a seamless cross-platform experience for users.

PROJECT EXPERIENCE

Project Name	**:** AshTech
Role	**:** Android Developer
Duration	**:** jan 2022 till jul 22
Tools Used	**:** Android Studio(JAVA ,XML)

Description:
AshTech is a mobile app where users can buy and sell Fly Ash. It offers a user-friendly interface for browsing Fly Ash products, secure payment options, and a rating system. The app connects buyers and sellers, making it easier to trade Fly Ash in a transparent marketplace.

PROJECT EXPERIENCE

Project Name	**:** VediFest
Role	**:** Flutter Developer
Duration	**:** July 2023
Tools Used	**:** Flutter, Android studio

Description:
VediFest is your personal astrologer app, designed to provide you with a comprehensive and personalized journey through the mystical world of astrology. Whether you're a seasoned astrologer or just curious about the cosmic forces that shape your life, VediFest is your go-to companion for all things celestial.

Roles and Responsibilities:

➢ Developing the cross-platform app using frameworks like React Native.
➢ Implementing the app's user interface, functionality, and integration with backend services.
➢ Conducting testing and debugging to ensure app performance and stability.

➢ Continuously updating and improving the app based on user feedback and business needs.
➢ Establishing clear communication channels between the app developer and backend developer to ensure effective coordination and alignment.

Shubham Kumar Singh

Working with Omnetway InfoSystem Pvt Ltd. From Feb 2021-Dec 2021

PROJECT EXPERIENCE

Project Name	: NathEcWork
Role	: Technical Lead & React Native Developer
Duration	: may 2021 till Aug 21
Tools Used	: React Native and Sql Server, Android Studio

Description: The NathEcWorks is a e-commerce mobile app enables users to buy electric products and sellers to sell them. It offers a user-friendly interface, detailed product listings, secure payments, and communication features. The cross-platform app streamlines the shopping experience and aims to enhance online transactions for both buyers and sellers in the electric product market.

Project Name	: WordPress Control Pannel
Role	: React Native Developer
Duration	: Aug 2021 till Sep 2021
Tools Used	: React Native and WordPress

Description: The React Native WordPress Control Panel app allows users to manage their WordPress websites on the go. It offers a user-friendly interface, post and page management, comment moderation, media uploads, plugin and theme control, analytics, and cross-platform compatibility. It provides a seamless mobile experience for WordPress site owners.

Project Name	: WordPress WebView Application
Role	: React Native Developer
Duration	: Oct 2021 till Dec 2021
Tools Used	: React Native and WordPress

Description: The WordPress Display App is a mobile application designed to showcase and display WordPress websites in a user-friendly and optimized format. This app provides an enhanced browsing experience for users accessing WordPress sites on their mobile devices.

With the WordPress Display App, users can explore and navigate WordPress websites seamlessly. The app retrieves website content, including pages, posts, images, and other media, and presents it in an optimized layout for mobile viewing. It ensures that the website's design and structure remain intact while adapting to the mobile screen size.

Working with The Sparks Foundation · Internship from Feb 2021
